# ABOUT THAILAND

## HISTORY

The Thai nation began in the 13th Century in what is currently Chiang Mai, a city to the far north of Thailand.

During the 1400s, the capital moved from Chiang Mai to Sukhothai, in central Thailand, and then to Ayutthaya during the 1500s. During this time Thailand was known as Siam.

Ayutthaya was a major kingdom in the region and its influence spanned across Laos and Cambodia and south to Malaysia.

In 1765 The Burmese attacked Ayutthaya and ransacked the city. The Thais retook the capital a decade later but they did not attempt to restore it to its previous glory.

Instead, they moved the capital to the Bangkok region, which is now currently the home of the Thai monarchy and the capital of Thailand.

The country was known as Siam and was ruled by a monarch until 1932, when King Rama VII instituted a constitutional monarchy. In 1939, Siam was officially renamed Thailand.

Thailand enjoyed a sustained period of democracy from 1992 until 2006.

Since 2006 the country has seesawed between democracy and largely benign, military rule.

## CLIMATE AND GEOGRAPHY

In most of the country, temperatures are generally hot and humid, with a cooler season between November and February.

March to June is a hot and dry season with little rain. In contrast, between July and October, Thailand sees 98 percent of its annual rainfall.

Thailand's main cities include Bangkok, the capital and largest city; Chiang Mai, famous for its cultural heritage and nature; and Phuket, a popular island destination for tourists.

## CULTURE

Thai people are well known for being relaxed, courteous, and hospitable. Buddhism is the dominant religion in Thailand and is the dominant influence on Thai culture.

The concept of “wai,” a way to say hello and goodbye without using words, is used throughout society as an overall method of paying respect. “Wai” is performed by bowing one’s head to meet the thumbs of two pressed palms. The two major ways to use “wai” are as a greeting with friends and acquaintances, and as a show of respect to people older or of higher status, but also towards the Buddha and places of worship.

Westerners are greeted with a traditional handshake, and should be addressed using “Mr.,” “Mrs.,” or “Miss” followed by their last name. Thais commonly address each other by using the word “Khun” (similar to Mr. or Mrs.) followed by the person’s first name. Thais tend to be very reserved, but have a good sense of humor. They attach great importance to laughter and smiling. Smiling is even common in embarrassing and high conflict situations.

## RELIGION

Buddhism has a major influence on the daily lives of Thai people, and is practiced throughout the normal course of life.

The Buddhist principle teaches one to avoid extremes and emphasizes personal well-being above material achievements.

Foreign nationals visiting a Buddhist temple or a sacred place should be mindful of their behavior to show respect. The best option is to follow the example set by the Thais.

## LANGUAGE

The biggest challenge confronting foreign nationals in Thailand is the language barrier. The official language of the country is Thai. That said, there are many different ethnic groups in Thailand and not everyone speaks the same language.

The use of English will be predominantly restricted to your workplace. Although it is necessary for all students wishing to attend university to pass an entrance examination in English, this does not mean that the person will be fluent in English.

Thais tend to be at the beginner level of English and their reading and writing skills tend to be more advanced than their speaking skills. Thais are generally shy about speaking English.
